FOR CUSTOMERS

THE PROTIQ MARKETPLACE

Your central hub for industrial manufacturing

40+	160+	12+	Live
suppliers	materials	processes	price, even without login

WELCOME TO THE PROTIQ MARKETPLACE

Anyone looking for a manufacturing partner for custom parts no longer has to compare one website after another. On the PROTIQ Marketplace, you upload your 3D model once, immediately see matching offers from PROTIQ and more than 40 qualified suppliers – and choose for yourself who manufactures it. For plastics, metal, ceramics and glass, in 3D printing and with conventional processes.

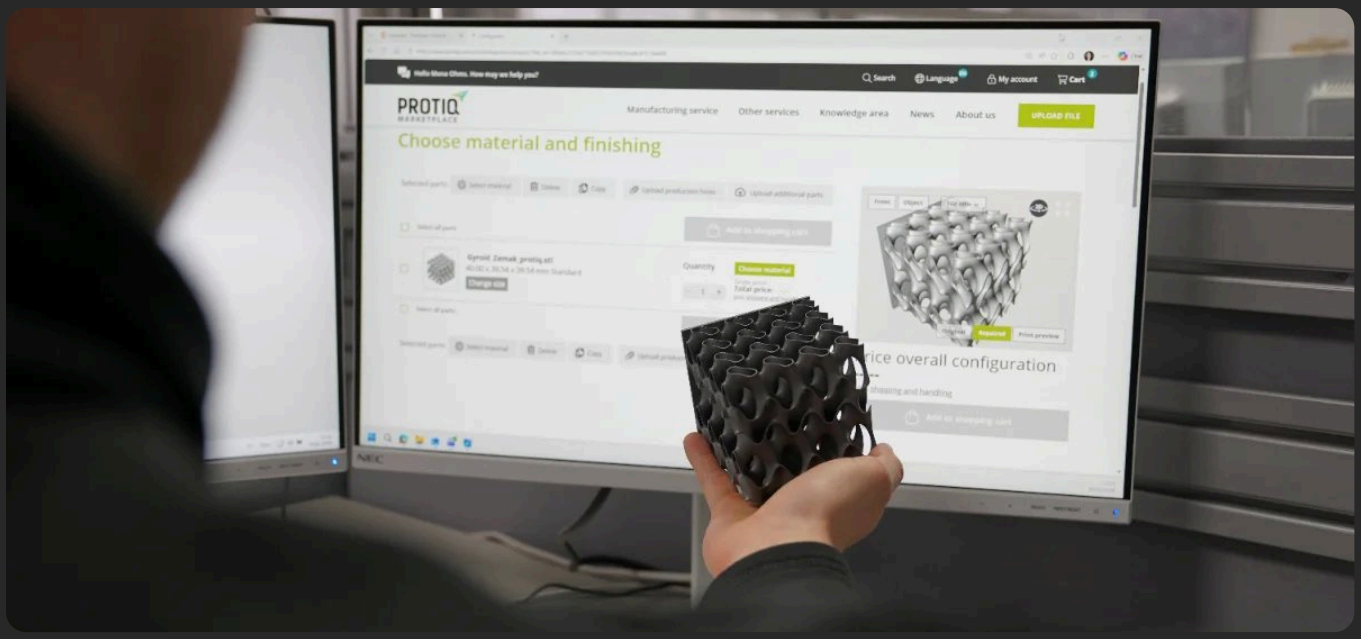

The entire ordering process is digital: from upload and price to quote, order and delivery. We developed all functions based on our many years of experience with industrial customers. Since 2010, PROTIQ has been the specialist for additive manufacturing within the Phoenix Contact Group.

WHAT AWAITS YOU ON THE PROTIQ MARKETPLACE

- **Wide range:** more than 160 materials and more than 12 processes – from prototype to series production.
- **Simple process:** fully digital from the first enquiry to delivery.
- **Full transparency:** prices, delivery times and supplier ratings at a glance. You choose your supplier yourself.
- **Personal support:** we are happy to advise you – and the free PROTIQ Buyer Protection helps if something is not right.

OUR PLATFORM AND YOUR BENEFITS

Live price and supplier comparison

Right after uploading, you see matching suppliers, materials and prices – even without logging in.

Automatic data check

Your 3D file is checked automatically during upload and optimized for production.

Save and share projects

Save shopping carts as projects to order them later or share them with colleagues.

Binding PDF quotes

In the shopping cart, you download a binding quote as a PDF with one click – ideal for your purchasing department.

Your own order numbers

When ordering, you enter your internal order number. This makes it easy to match delivery and invoice.

Variety in one place

More than 40 specialists with different materials, processes and competencies on one platform.

Upload your part now and see the price live www.protiq.com ▶

HOW TO ORDER ON THE PROTIQ MARKETPLACE

From 3D model to order in just a few minutes.

1

Upload

Drag and drop your CAD file onto **protiq.com**. We process all common file formats. Your file is checked automatically and optimized for production.

2

Filter and compare

Narrow down material, process and supplier with filters. The supplier comparison shows prices, delivery times and ratings – and you choose your supplier yourself.

3

Configure

Set the quantity and finish and check your part in the 3D viewer. The price is shown live. If you wish, choose PROTIQ Purchase – then the invoice comes from PROTIQ.

4

Shopping cart

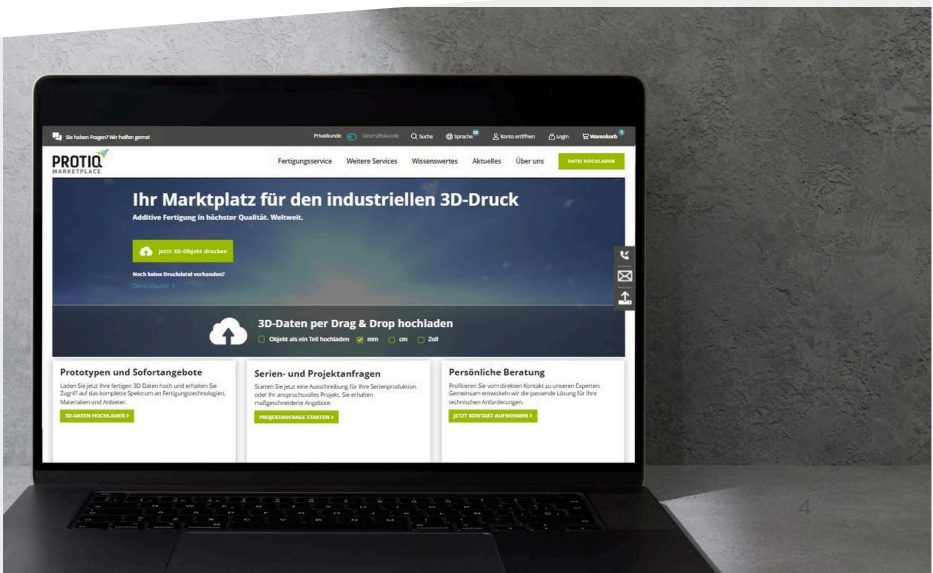

Save your cart as a project, share it with colleagues, download a binding PDF quote – or go straight to checkout.

5

Order and delivery

Choose the delivery address and payment method and, if required, enter your own order number. Your order goes automatically to the supplier of your choice; your parts are manufactured and shipped worldwide.

FEATURES IN DETAIL

Filters in the configuration process

We actively support you in choosing the right material, process and supplier.

Does your material need a certain conductivity, particular flexibility or a specific certification? Simply set the appropriate filters – by process, material group, material properties or supplier rating – and receive exactly the offers that suit your project. As usual, with automatic pricing.

Supplier comparison and delivery times

The supplier comparison lists all matching offers one below the other – with price, delivery time and rating. Depending on the supplier, you choose between up to three delivery times and decide for yourself between economical and fast.

Save and share projects

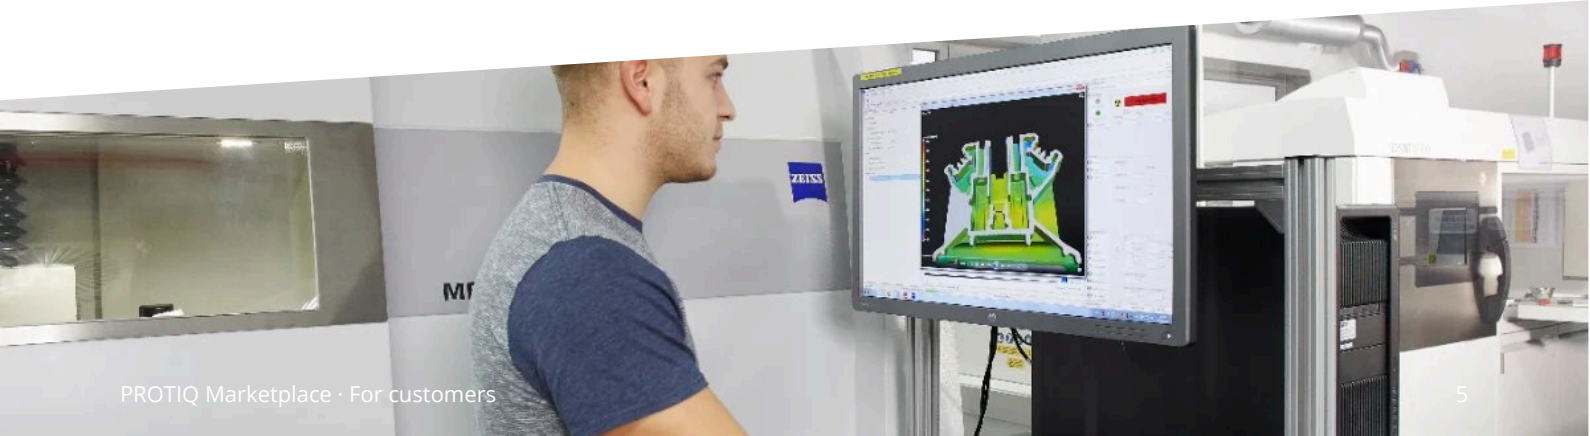

Use “Save/share cart” to store your cart as a project. Under “Saved projects”, you can move entire projects or individual items back into the cart, download them or share them by email – with ordering rights if you wish.

Binding PDF quotes

Does your purchasing department need an official quote? As soon as your parts are in the cart, you download a binding quote as a PDF with one click.

Your own order numbers

When ordering, you enter your internal order number. This makes allocation within your company easier.

MORE THAN 3D PRINTING

In recent years, the Marketplace has grown to include many qualified suppliers. For you, this means: the whole world of manufacturing in one place.

Further manufacturing processes

In addition to additive processes such as SLS, SLM, SLA or Multi Jet Fusion, you will also find conventional processes on the Marketplace – for plastics, metal, ceramics and glass.

CNC machining ›

Vacuum casting ›

Injection molding ›

Investment casting

Glass ›

Supplier profiles

Find out everything about our suppliers in one place: each profile shows the processes and materials offered, customer ratings and further content such as photos, news or downloads.

View all suppliers ›

Supplier ratings

Customers rate their orders. In the configurator and on the supplier profiles, you see the average and the number of ratings – for a well-founded decision.

Individual project tender

For series and demanding projects, you can start a tender to suitable suppliers if you wish and receive tailored offers.

MORE SERVICES ON THE MARKETPLACE

ONLINE TOOLS ›

With our configurators, you design copper inductors, gears or ICS housing covers in just a few steps – without a CAD program.

DATA CREATION ›

No 3D data available? We create suitable 3D models to your specifications – or digitize existing parts, e.g. by CT scan.

CONSULTING ›

Not sure which material or process suits your project? Get in touch – our team will be happy to help.

QUALITY ASSURANCE ›

In addition to manufacturing, we offer quality assurance measures that you can add during the ordering process.

PROTIQ PURCHASE ›

Use the full range of the Marketplace – without dozens of vendors in your system. You choose the supplier, the invoice comes from PROTIQ. Selectable per order; you see the costs directly in the ordering process.

PROTIQ BUYER PROTECTION ›

Free of charge and selectable for every order: after delivery, you rate your order. If there were problems, we help find a solution – whether you ordered from PROTIQ or from another supplier.

TRAINING ›

Our team shows you how to integrate 3D printing into your processes and identify new potential.

DOWNLOADS AND KNOWLEDGE ›

Material data sheets, technical articles, process explanations, application examples and much more on protiq.com.

HOW TO GET STARTED

Three ways to your part – you decide how much support you need.

1

Upload and order yourself

Upload your 3D model to **protiq.com**, compare offers and order directly.

2

Individual project tender

For series and complex projects, **you can start a tender if you wish** and receive suitable offers.

3

Talk to us in person

We advise you from the first idea to series production: **+49 5235 34 38 00** or **service@protiq.com**

This brochure and more to download

You will find material data sheets, technical articles and information material in the download area on **protiq.com**.
